"When I had nowhere to go, she assured me and my family Will-Grundy Medical Clinic would be there for us, and they sure did keep their promise. We are beyond blessed and cared for. They gave me the sigh of relief my family needed."

-Jennifer O.

Dear Friend,

Your generosity makes health, healing, and hope possible for families like Jennifer's. Because of your support, Will-Grundy Medical Clinic (WGMC) is able to walk alongside individuals and families during some of the most difficult moments of their lives--helping them not only to survive, but thrive. Your investment changes lives, strengthens our community, and gives families hope for a brighter future. Thank you for believing in our mission and for making stories like Jennifer's possible.

When Jennifer completed the medical treatment she desperately needed, she was determined to rebuild her life. But without stable housing, she remained separated from her children and faced the heartbreaking possibility of losing the progress she had fought so hard to achieve. At that critical moment, WGMC stepped in.

WGMC provided Jennifer with emergency shelter and worked quickly to help her secure stable housing. Through WGMC's Tenant-Based Rental Assistance (TBRA) program, Jennifer moved into a safe home, creating the stability her family needed to reunite. Soon after, her three children returned home, and Jennifer was able to embrace one of life's greatest gifts, the joy of being together as a family again.

Jennifer's journey to this moment was not easy. She courageously battled illness and addiction, making the difficult decision to allow her children to stay with family members while she focused on healing and recovery. Today, Jennifer celebrates sustained recovery. She is healthy and attends 12-step meetings regularly, practices daily meditation, and shares her story openly so others know that recovery is possible and hope is never out of reach.

She also maintains steady employment, where she is respected and appreciated for her dedication, perseverance, and strong work ethic.

With ongoing case management and unwavering support from WGMC, Jennifer has continued to build a life of independence and stability. In December of 2025, she successfully graduated from WGMC's Tennant Based Rental Assistance (TBRA) program after signing a lease for her apartment as a permanent resident. Now, she is looking toward an even brighter future as she works with Habitat for Humanity to achieve her dream of home ownership.

When Jennifer reflects on her journey, she becomes emotional speaking about the compassion and encouragement she received from WGMC's peer recovery support specialist, Michelle Lowman. Jennifer says that without Michelle's belief in her, and without the support of WGMC, many of these milestones would not have been possible.

Today, Jennifer's story stands as a powerful reminder of what is possible when someone is given not only resources, but also dignity, encouragement, and a community that believes in them. Because of supporters like you, families are reunited, lives are transformed, and hope continues to grow.
